

**Student on-boarding and
Coaching program for
Nurse Anesthesia Schools**

*Understand each student's unique
needs before they enter the classroom*

“WE HAVE INSTANT ACCESS TO A WEALTH OF INFORMATION THAT CAN TAKE MONTHS TO NOTICE THROUGH OBSERVATION AND INTERVIEWS ALONE.”

*BETTE WILDGUST CRNA MS MSN,
DIRECTOR CCMC/VU NURSE ANESTHESIA PROGRAM*

RECOGNIZING THE NEED

Assessing how a student will respond to the challenges of specialized programs and coaching them through those challenges remains a significant struggle for instructors. We collaborated with Crozer Chester Medical Center / Villanova University in creating a program to assess students entering a Nurse Anesthesia Program and developed a customized coaching strategy for those students. The Prevue Student On-Boarding and Coaching program will better equip your instructors and give your students the best experience possible.

CREATING OUR SOLUTION

By having top performing Nurse Anesthesia students take the Prevue Personality Assessment, a benchmark profile was created, identifying the common key traits that are exhibited by those students.

The Prevue Personality Assessment is based on the Five Factor Model, the most recognized personality model in the world of psychometric testing. Examining 24 personality traits, the Assessment provides coaching reports to instructors for each student, enabling instructors to provide the most effective coaching to students.

WE WALK YOUR STAFF THROUGH EVERY STEP

Training your faculty in the use of the Prevue Coaching Program is easy. We provide an online training portal and webinars to fully train instructors and faculty staff in administering Prevue Assessments to students and using the assessment results in on-boarding and coaching student nurse anesthetists. We also assign a certified Prevue Coach to provide one-on-one support for your faculty's first three coaching sessions. The Prevue Assessments are administered to students through Prevue Online, our secure online server. We deliver each student's report to the appropriate faculty member(s) so they can begin the coaching process. Each report is clearly laid out to guide your staff through reading the report, understanding the results and communicating those results to the student.

“WITH THIS DATA, WE CAN PROVIDE TARGETED COACHING TO EACH INDIVIDUAL STUDENT TO HELP ENSURE THEIR SUCCESS IN THE PROGRAM.”
